REVISION RECORD			
LTR	ECO NO:	APPROVED:	DATE:

Cabled interphi links

Requires -3 "ARC6" cable, which maps pin 1 to pin 49
This is "natural" however:
the "left side" RACK has J10 turned 180 degrees
Therefore pin N-1 is at top-left of SURF connector
here pin 1 is top-right of SURF connector
It's just a straight cable.

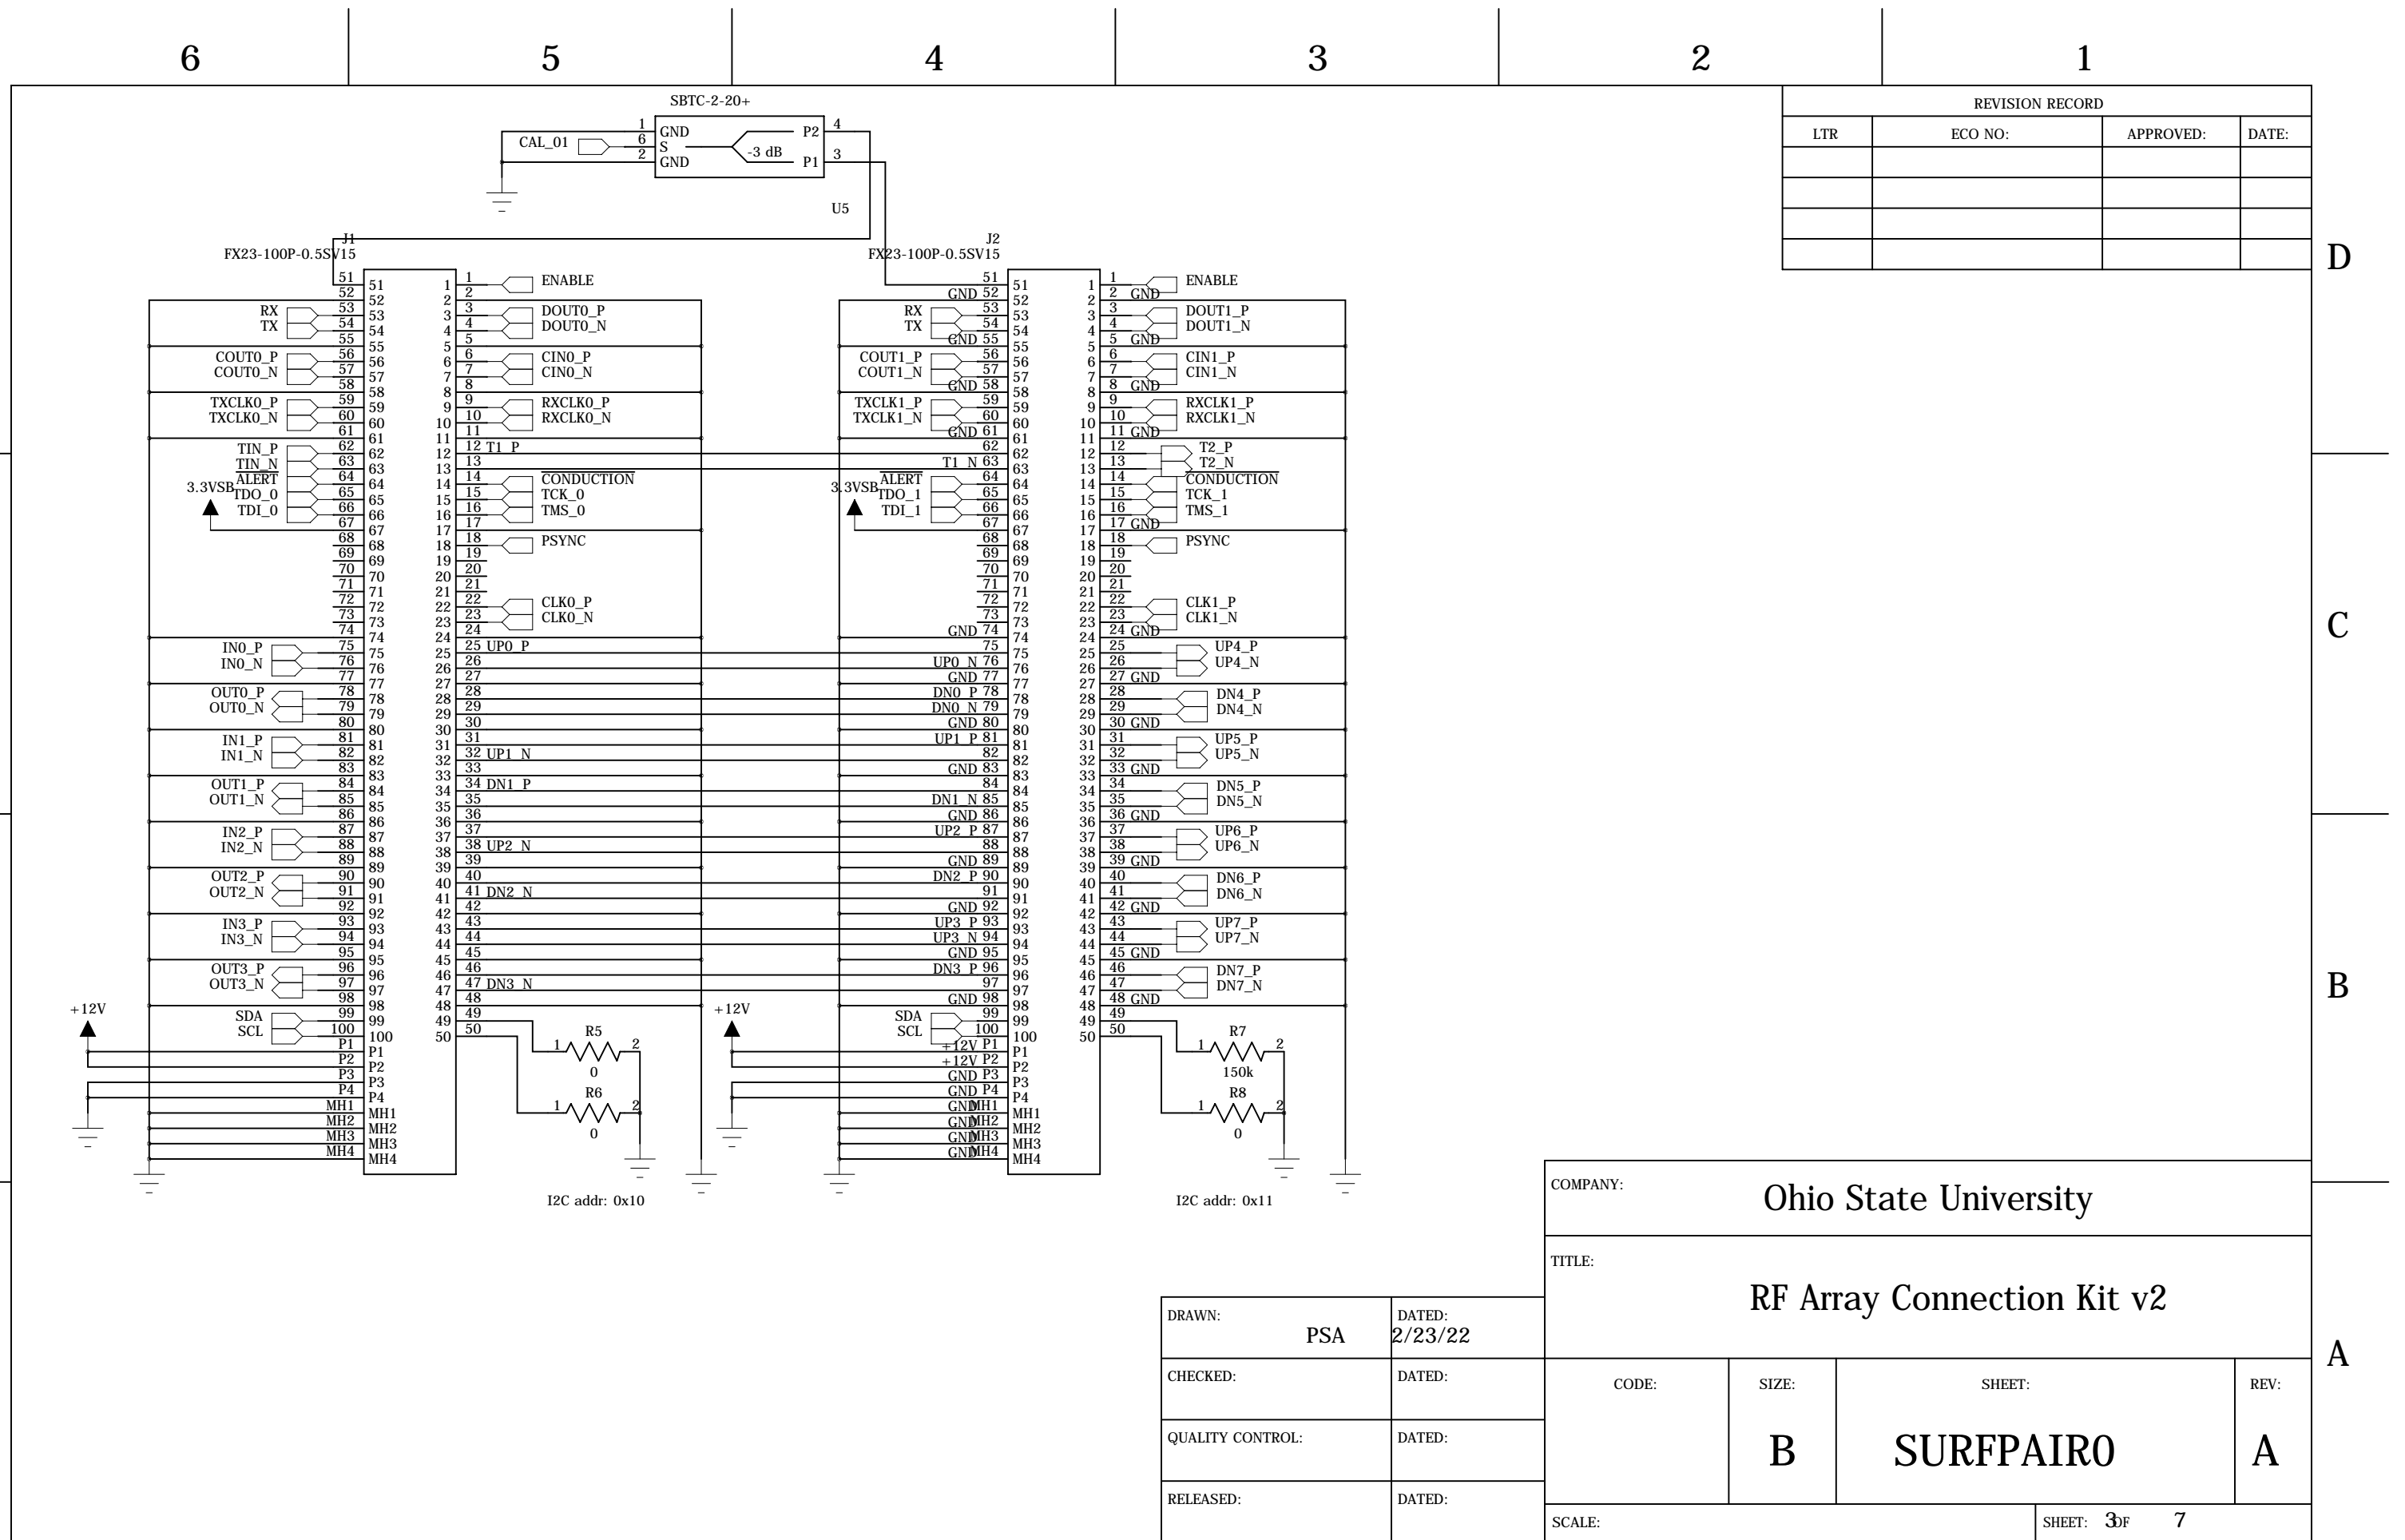

COMPANY:		Ohio State University	
TITLE:		RF Array Connection Kit v2
